UNITED STATES GOVERNMENT

Memorandum

TO : Mr. A. H. BELMONT

DATE: March 8, 1960

FROM : F. A. FROHBOSE

SUBJECT: DEFENSE PLANS - RELOCATION PLANS

Purpose of this memorandum is to delete from our defense planning the programs for "stay behind" notification of employees family care program, and stay behind staffing of the Bureau.

A new concept propounded by Office of Civil and Defense Mobilization (OCDM) provides that during increased international tensions, "Mobilization Plan C" could be put into effect under which we would send ten employees from the Bureau to our relocation site. Conceivably, as tensions increased, we would send additional personnel. Under imminent attack conditions, "Mobilization Plan D Minus" would go into effect, and we would relocate all personnel scheduled for duty to our site (320) who are to be prepared to stay there for at least 30 days. Under Plan D Minus the Washington Metropolitan Area would be evacuated and no one would remain on duty at the Bureau.

Previously, we provided for two surges under which we were to send down employees in a first surge and supplement them in a second surge 24 to 48 hours later. Also, we provided a squad system of notification for those employees not going to the site to pass out instructions and as a reservoir to secure additional employees. Also, we have certain employees designated to take care of families of employees who would be working at the site. Provision also was made for certain employees to stay behind to staff Bureau Headquarters.

In view of the new concept, the relocation plans of each Division need only provide for notification and relocation of employees and their alternates scheduled for relocation. The stay behind notification of employees, family care program, and stay behind staffing of the Bureau should be discontinued. This is possible since under Mobilization Plan C Bureau Headquarters would still be in operation, and we could readily provide for the care of the families of employees working at the site. Under Mobilization Plan D Minus, Bureau Headquarters would not be in operation, and employees not at the site would evacuate Washington, D. C., and their families would be cared for in Civil Defense reception centers.

The purpose of this memorandum is to recommend the discontinuance of car pools for relocation of Bureau personnel to our relocation site (R/S) during nonworking hours.

Our present planning provides for the relocation of approximately 300 people. Collection and transportation of personnel during nonworking hours is provided for on a divisional basis by a car-pool system. There is a substantial administrative burden in organizing and maintaining in a current status designation of drivers, car-pool members, and alternates because of revisions necessitated by almost daily changes in addresses, telephone numbers, work assignments, resignations, etc. Geographic distribution of personnel poses an additional problem. For example, the Domestic Intelligence Division has 32 relocatees who reside in the south east section of Washington, only one of whom has an automobile available for relocation.

The car-pool system was originally conceived under the World War II concept of bombardment, ample warning time, and no mass evacuation of metropolitan areas. The "nuclear missile concept" of war and assumptions of extremely short warning time, total obliteration of large areas and evacuation of metropolitan areas makes car-pool planning impractical.

The new concept in Government relocation propounded by Office of Civil and Defense Mobilization provides that during increased international tensions, "Mobilization Plan C" would be put into effect under which we would send 10 employees to our R/S. As tensions increased, we could send additional personnel. Under this system car pools can not be predetermined and there would be time to make suitable transportation arrangements as additional personnel are ordered to relocate.

EX-105

66-17381-2418

Under imminent attack conditions, "Mobilization Plan D Minus" would go into effect and we would relocate all personnel scheduled for duty to our site (300). Under Plan D Minus, the Washington metropolitan area would be evacuated and car pools could not effectively accomplish their mission because of key evacuation route restrictions making it impossible in most instances for drivers to pick up other individuals. Evacuation routes can not be crossed, and all personnel and their families must move in the direction of evacuation.

Memorandum Frohbose to Belmont
Re: DEFENSE PLANS -
RELOCATION OF PERSONNEL

Except for Virginia and some District of Columbia residents, this will be away from the Bureau's R/S. Current planning recognizes this and relocatees and their alternates have been advised that under this condition they should effect arrangements to insure that they reach the R/S individually at earliest possible time.

OBSERVATIONS:

From the above analysis it does not appear that the administrative burden and practical difficulties encountered in car-pool planning are warranted under the present concept. We will retain our telephonic notification system to initiate relocation during nonworking hours. Employees designated for relocation will be instructed to make the most practical plans available for proceeding to the relocation site, bearing in mind the Bureau's urgent need for their services during a period of emergency.

RECOMMENDATION:

That the maintaining of plans for relocation by car pool during nonworking hours be discontinued.

DATE: May 12, 1960

FROM : R. O. L'ALLIER

SUBJECT: BUPLANS - FIELD CHAIN OF COMMAND
AND RELOCATION SITES

EMERGENCY HEADQUARTERS FOR SGT.

Memorandum Boardman to Belmont, February 23, 1956, captioned, "Buplans - Field Relocation," authorized a notebook setting forth the chain of command and relocation site of each Bureau field office. Referenced memorandum also authorized retention of the original document among the confidential records at the Bureau relocation site.

This document has been brought up to date on a continuing basis as necessitated by changes in the field chain of command or relocation sites.

The document has now been completely revised and is current as of this date. It serves as a ready reference for the Bureau official in charge of the Bureau relocation site during a period of emergency and reflects the identity of individuals in each field office familiar with the over-all field office plans. This document will be kept current as changes in the field arise.

RECOMMENDATIONS:

1. That the document, "Field Chain of Command and Relocation Sites," enclosed with [redacted] copy of this memorandum be retained among the confidential records at the Bureau relocation site.

b7E

2. That the present document now in the possession of [redacted] be destroyed.

Relative to the status of the Bureau's Relocation Site at [redacted] from the standpoint of protection against blast and fallout subsequent to a nuclear detonation, the following is set forth:

Initially, in connection with Operation Alert exercises, from a study of the mock attacks and prevailing winds, the Laboratory considered the protection which would be available to our site and these studies concluded that our site would have escaped damage and was considered comparatively safe.

Office of Civil and Defense Mobilization (OCDM) in 1959 reviewed the relocation sites of Federal agencies in the area, submitted its recommendations which were approved by the Cabinet at a Cabinet Meeting, and it was determined that there are 17 major sites that would be needed to house all essential agencies. As a result of this study, it was determined that to afford the FBI a site protected from blast and fallout an underground facility would be required at an estimated cost of approximately \$770,000. At that time the Director noted that OCDM and General Services Administration (GSA) would have to get the money for this program as the Director did not intend to allow the FBI to be used as a lever for it. GSA has been attempting to get the money from Congress but at the present time the program is stalemated with very little likelihood the money will be forthcoming this year. It is noted that of the 17 sites considered necessary, only 4 of them are in the protected category, these being OCDM's Classified Location (formerly referred to as [redacted])

[redacted] The Bureau is in the same category as the other 13 critical agencies not having protected sites, some of which are [redacted]

On 3/8/60 Governor Hoegh, Director, OCDM, was contacted in connection with our participation in Operation Alert 1960, at which time [redacted]

 REG-24

EX 104

5-157

Memo to Mr. Belmont

RE: DEFENSE PLANS - BUREAU'S RELOCATION SITE

b7E

[REDACTED]

Hoegh advised he would be only too happy to designate space for the Director at OCDM's Classified Location. At this time the Director's appreciation was expressed for the offer and the Director's desire to be with his associates at the Bureau's Relocation Site to direct FBI activities was pointed out to Governor Hoegh.

Concerning movement of our employees to relocation sites during duty hours, they will move to our site only upon instructions; and during non-duty hours only upon authentication of an actual attack or as a result of notification by us. This, of course, permits us, based upon intelligence, to do what is best for the country, the FBI, and the employee. Under a directive issued by Governor Hoegh, employees in the Executive Branch of the Government scheduled for emergency duty at the four protected sites are required, when the "take cover" signal sounds on sirens, to immediately leave any shelter and attempt to reach their protected sites. All other Government personnel would take cover in their respective Government buildings. Hoegh's order caused considerable consternation since it obviously would expose personnel en route to protected sites to the attack and the immediate consequences thereof. We recognized this, discussed it with OCDM, and with regard to the 5 Liaison Agents scheduled for duty at these sites succeeded in having OCDM amend the instruction to us so that these Agents would first check with the Bureau before moving out. Several Government agencies, including the Department, have indicated they do not intend to comply with this order and to date the Department has not issued instructions to its personnel. All of our personnel scheduled for emergency duty, time permitting, will go to [REDACTED] which is recognized by OCDM and the White House as being outside any assumed target area.

The question of rendering our site completely safe from blast and fallout effects as of this time depends upon completion of the OCDM-GSA program to obtain the money for such construction for our site and the 13 other sites under the program. Unless we want to spend in the neighborhood of \$770,000, ourselves, we will have to wait for OCDM-GSA to realize success under their program.

We know we can operate at [REDACTED] with the space and equipment available. Any acceptance of space at OCDM's Classified Location would not only cut the size of our emergency staff, but would subordinate the FBI to OCDM's desires. It was learned during Operation Alert 1960 that agencies having space at OCDM's Classified Location encountered considerable difficulty in having their communications sent to field establishments since OCDM gave its own messages priority.

Memo to Mr. Belmont

RE: DEFENSE PLANS - BUREAU'S RELOCATION SITE

[REDACTED]

b7E

RECOMMENDATION:

That we continue to consider [REDACTED] our relocation site and have our emergency staff proceed to this site in accordance with existing instructions.

Del. to Admin Sec'y
Hoegh's Sec. 4:15 PM
BY LIAISON 5-26-60

Business Plan - Emergency Headquarters
For Sec'y.
May 25, 1960

Honorable Leo A. Hoegh
Director
Office of Civil and Defense Mobilization
Executive Office Building
Washington 25, D. C.

My dear Mr. Hoegh:

As you are aware, the Federal Bureau of Investigation is entrusted with the responsibility for carrying out certain emergency programs of the utmost importance to the country, under conditions of an alert or impending attack on the United States.

The effectiveness of these programs is directly proportionate to the amount of time we have to implement them. Consequently, we have set up our planning on the basis that implementation will be started in a matter of minutes following proper authorization. This means that it is essential that the nucleus of our top officials reach our relocation site with no delay, to direct and supervise the continuing implementation of the internal security responsibilities entrusted to us.

I would appreciate your assistance in arranging with the Department of Defense for a helicopter to be immediately available to transport our top officials to our relocation site, under emergency conditions. When these arrangements are made we will be glad to work out the necessary details with the Department of Defense.

Sincerely,

(Cover memo, Belmont to

The Foreign Operations Policy Manual contains Bureau policy, procedures and instructions for our Legal Attaches in the operations of our foreign offices. The vital information set out in this Manual would be necessary in affording proper instructions and guidance to our Legal Attaches in the event of a national emergency.

In view of the fact that other Bureau policy and operational manuals are stored and maintained with the vital records at the Bureau's relocation site, it is felt a copy of the Foreign Operations Policy Manual should be maintained at the relocation site.

RECOMMENDATION:

That a copy of the Foreign Operations Policy Manual be included in the vital records of the Liaison Section at the relocation site. It will be the responsibility of a representative of the Liaison Section to check this Manual on a semiannual basis to insure that it is maintained in a current and up-to-date status.

Reference is made to memorandum Mr. Belmont to Mr. Boardman dated 7/30/57 captioned "Defense Plans - Relocation, All Divisions," setting forth certain procedures to be followed in maintaining the Bureau's defense plans in an up-to-date status. Recommendation number 2 of that memorandum required that a current list of evacuees and alternates scheduled for relocation be submitted every 60 days and that any changes on a day-to-day basis be called to the attention of the supervisor charged with maintaining the check-off list. Reference is made to my memorandum 4/8/60 in this regard.

Reference is made to the request from the Defense Plans Desk dated 1/12/60 captioned as above requesting the names, blood types and factors, telephone numbers and addresses of personnel designated as key relocatees. Referenced request also required that a copy be designated for Mr. Huelskamp, Room 1541, who now has the responsibility for maintaining the check-off list for key relocatees.

There is attached a listing in this regard.

ACTION:

This memorandum should be routed to the Defense Plans Desk. Any day-to-day changes in the attached list will be called to the attention of B. L. Huelskamp. The attached list will be kept current on a 60-day basis.

At 9 a.m. on 5/25/60, Supervisor Minnich and I went over to see Governor Hoegh, Director of the Office of Civil and Defense Mobilization (OCDM), and his Chief of Security, Terry Harte, to explore the possibility of having [redacted] immediately available to transport key FBI officials to [redacted] in the event of an emergency.

Our present defense plans contemplate that Bureau personnel who will be relocated will go to [redacted] if there is time and conditions are such that this is possible. In the event this is not possible, we have [redacted]

As a further means of getting the Director and his key personnel to [redacted] as promptly as possible, we feel that a [redacted] is highly desirable. Present top government planning includes [redacted]

I pointed out to Governor Hoegh that in an emergency the FBI is geared to go into instantaneous action to implement the emergency programs which will be absolutely vital to the welfare of the country, and that time will be of the essence. I stated that the various documents and instructions have already been prepared, and conferences of personnel have been held, so that the FBI will be operational in a matter of minutes--not hours. The Director and his key personnel must, therefore, be at our relocation site immediately, to supervise and control these activities.

I told Governor Hoegh that I knew he was acquainted with the importance of our work to the country in the event of an emergency. He acknowledged this and said he could understand why the Director would "want to be with his troops."

RELOCATION

Reference is made to my memorandum to you dated 5-25-60, captioned as above, indicating that a letter was being sent to Governor Hoegh, Director of the Office of Civil and Defense Mobilization (OCDM), setting forth our need for [redacted] to transport the Director to [redacted] in time of emergency.

b7E

Today, Mr. Terry Harte, Chief of Security, OCDM, made available to Liaison Agent Mooney a copy of a letter from Governor Hoegh to the Honorable Charles C. Finucane, Assistant Secretary of Defense (Manpower, Personnel, and Reserve), dated June 7, 1960. In this letter, a copy of which is attached, Governor Hoegh sets forth the need for such transportation by the Director and a nucleus of key FBI officials, based on the essential needs of this Bureau under emergency conditions. He urgently requests that [redacted] be made available for the exclusive use of the FBI in an emergency. This vehicle would be in addition to [redacted] already designated for use of the civilian agencies under the Joint Emergency Evacuation Plan.

Mr. Harte indicated that this letter would be handled in the Department of Defense by Mr. John Clear. Mr. Clear is known to Liaison Agent Day and the latter will follow with Department of Defense concerning this matter.

Mr. Belmont, in a memorandum dated June 3, 1960, captioned as above, recommended that I contact the Bureau of the Budget to get two large rooms for working space presently allocated to the Budget Bureau and thereafter Mr. Belmont would contact Governor Hoegh to get a bedroom for the Director's use. The Director approved my contacting the Bureau of the Budget, it being noted that the Bureau of the Budget has seven 16' by 40' rooms allocated to them in addition to an executive suite at the OCDM classified relocation center.

I spoke to Joe Eigenmann this morning and he told me that it would be useless to initiate a request for Bureau of the Budget space at the OCDM relocation center. He said there is an intense behind-the-scenes struggle as to who runs the Government when the emergency occurs. The Bureau of the Budget is of the opinion that the Executive Office of the President should run the Government when the emergency occurs. Governor Hoegh, under existing legislation, apparently will be the Acting President and apparently OCDM feels that they should run the show when the emergency occurs.

Eigenmann said that Wilbur Ziehl, Administrative Assistant to the Director of the Bureau of the Budget, would be the proper official to contact to request the Budget Bureau to give up two rooms. Eigenmann said he thought we would be wasting our time in trying to get these rooms and he knows as a matter of fact that the Bureau of the Budget will buck any effort on the part of anyone to get any of its space but the final analysis in allocation of any of the space there would have to come from Governor Hoegh of OCDM. I got the impression from talking to Eigenmann that the Bureau of the Budget might be annoyed if any effort would be made to take any space away from them because apparently the Bureau of the Budget expects to take all of their employees to the relocation site when the emergency occurs.

 Gandy _____

My memorandum 6-3-60 set forth my observations concerning an inspection of Office of Civil and Defense Mobilization (OCDM) Classified Location, and the Director approved Mr. Mohr's contacting the Bureau of the Budget regarding two large rooms for working space and my contacting Governor Hoegh, Director, OCDM, for one bedroom for the Director's use. Mr. Mohr, 4-6-60, set forth results of his contact with Budget and the Director approved no further efforts be made to obtain the space through Budget, but instead, efforts be made to get the working space through OCDM.

On 6-9-60, I discussed this matter with Governor Hoegh, pointing out our need for space based on the fact that the President and the Attorney General would want the Director at OCDM Classified Location. Governor Hoegh immediately recognized this need, stating he was extremely pleased over the Director's decision to utilize space at the Classified Location as he had previously been quite concerned that in the event of an emergency and the President inquired as to the Director's whereabouts, he would have had to give the answer that the Director was at the FBI Relocation Site.

Hoegh explained that space has become very critical at the Classified Location, that he is not satisfied with the space allotments there, and he is going to realign all space assignments. He pointed out that many agencies have too much space for their emergency functions, whereas others do not have sufficient space. He said that pending such survey and realignment, he, as of this time, is assigning to the Director one of the bedrooms previously assigned to the Department of Justice, and one of the 16'x40' rooms previously assigned to the Bureau of the Budget. He said this was his immediate decision in order to provide the Bureau space at this time, in the event an emergency should occur tonight, tomorrow, or in the near future.

I advised Governor Hoegh that we did not wish to be in the position of taking space from the Attorney General. He said this was his responsibility, that the Director's position was such he should have a bedroom next to the Attorney General, and the Attorney General,

of course, still had a bedroom for himself and, if he desired, his top assistant. He stated he would notify the Department and Bureau of the Budget of the reassignment of the space.

Obviously, Governor Hoegh is in a tight position on space at this time, until he realigns space at the Classified Location, and this space will suit our interim needs until he readjusts it, at which time he indicated a good possibility we will receive another room for working space.

Terry Harte, Director of Security, OCDM, advised these arrangements would be confirmed in writing by the Governor.

RECOMMENDATION:

It is our feeling that this arrangement is satisfactory on a temporary basis. The Director should be located close to the Attorney General and it is certainly more important for the Director to have this bedroom than someone like Yeagley, et al. Therefore, if you approve, we will await the letter from Governor Hoegh and thereafter make arrangements to assign personnel and alternates and to equip this space.

 MOONEY

In response to our request, Governor Hoegh, Director of the Office of Civil and Defense Mobilization (OCDM) wrote on June 7, 1960, to the Assistant Secretary of Defense and asked that [redacted] be made available for the exclusive use of the FBI for the movement of its key officials to their relocation site in event of emergency. On June 21, 1960, Colonel William K. Smith, Assistant Director, Office of Emergency Planning, Office of the Secretary of Defense (OSD) asked our Liaison Agent to discuss the problem with him on an informal basis.

Colonel Smith explained that OSD had originally agreed to provide [redacted] in connection with the OCDM Joint Emergency Evacuation Plan. It was agreed that OCDM would select the officials to be thus evacuated. Soon after initiation of the plan, OCDM began pressing for increased transportation facilities and OSD subsequently agreed to make available [redacted]

When this was done, it was understood by both OSD and OCDM that this was the maximum number [redacted] which could be provided. Governor Hoegh, however, continued to press for more and about two months ago Defense Secretary Gates flatly refused further OCDM requests and advised Governor Hoegh that [redacted] at the disposal of OSD was fully committed for military purposes and there were no others available.

Colonel Smith stated that Governor Hoegh, in handling our request, is apparently trying to dump the problem in the lap of OSD knowing full well the request cannot be granted. He pointed out that to make another [redacted] available would require its purchase at a cost of \$230,000 and would mean that a crew of three men would have to be on duty on a stand-by basis throughout the hours the machine was available. Colonel Smith stated there was very little peacetime use for these [redacted]; that they require constant maintenance; and that Defense had already had to extend its allocation of these machines to the absolute limit in order to provide transportation for the military personnel deemed essential to the conduct of the war from their present stations to the

b7E

Underground Joint Chiefs of Staff Site at [REDACTED]

Since making the initial request in this matter, we have secured space for the Director at [REDACTED] and the Director is listed as one of the 52 top officials who will be transported to [REDACTED]. Justice has a total of three of the 52 spaces, the other two being presumably designated for the Attorney General and Judge Walsh.

It should be noted that Colonel Smith states that the present plan in event of warning of attack is to instruct all persons to take cover rather than to evacuate. Then, if there is sufficient time, important top officials can travel by automobile as there should be no traffic problem (this has not been made public.) It is further noted that the military state that a maximum of only 15 minutes warning is anticipated following the launching of intercontinental ballistic missiles aimed at this country. On this basis, [REDACTED]

[REDACTED] If more than 15 minutes warning is available, it means we will have had advance indication of attack and this will permit evacuation by automobile.

We do not want to be in the position of making it necessary for the military to ask for additional appropriations and for manpower standing by just for the FBI as such a situation is open to Congressional inquiry. We have, therefore, carefully analyzed the present situation:

Means of Relocation Now Available

[REDACTED]

Memorandum Belmont to Parsons
RE: DEFENSE PLANS - RELOCATION

As missile warfare is perfected, the maximum warning time will be constantly decreased, and the ability to remove key officials to their relocation sites will depend more and more upon advance intelligence and a decision by the President to relocate these officials in advance because of increasing tensions.

RECOMMENDATION:

In view of the facts above, it is our recommendation that we leave this matter as it is at present and not become involved in a political hassle between Governor Hoegh and the Secretary of Defense where we would be used as a tool by Hoegh in his effort to force Defense to assign more  for the removal of top officials. We have told Defense that our request was made of Hoegh; that we are making no additional request of Defense; and the matter of the OSD reply to Governor Hoegh's request is one to be resolved entirely by Defense.

The National Plan for Civil Defense and Defense Mobilization, as promulgated by the Office of Civil and Defense Mobilization (OCDM), is a document which establishes nonmilitary courses of action and the role of the Federal Government, the states and their political subdivisions, and individual citizens in the event of an emergency.

Each Bureau field office and all Seat of Government Defense Plans Coordinators are furnished copies of the National Plan.

Each major element in the Plan is developed in detail in an annex and these annexes are further supplemented by appendices. To date, all annexes and appendices have not been issued, as OCDM is continually amending and augmenting the Plan to assure currentness and workability. Upon preparation and receipt of the annexes and appendices, they are forwarded to the field offices and Division Coordinators by routing slip.

Since all Government, state, and local defense planning, including the Bureau's defense planning, must be subordinate to, and compatible with, the National Plan, it is believed a copy should be maintained with the vital records of the Liaison Section at the Bureau's relocation site.

RECOMMENDATION:

That a copy of the National Plan for Civil Defense and Defense Mobilization, together with its annexes and appendices, be included in the vital records of the Liaison Section at the Bureau relocation site. It will be the responsibility of a Liaison Section representative to check this Plan on a semiannual basis to assure that it is maintained in a current status.

Bureau War Plans Auxiliary Space For S.O.C.

Mr. Donald R. Hostetter
 Federal Bureau of Investigation
 113 Federal Building
 Detroit 26, Michigan

Dear Mr. Hostetter:

For your highly confidential information, you are advised that in the event of an emergency making it impossible for the Bureau to use Seat of Government facilities in Washington, D.C., plans are in existence to relocate essential employees to [redacted] the Bureau's relocation site.

You are being placed in the Bureau's chain of command in connection with defense plans. An appropriate chain of command has been established through the various Division Heads at the Seat of Government and in the event emergency conditions, demise, disability, or unavailability make it impossible for the Associate Director, the Assistants to the Director, the Assistant Directors, the SAC, New York, or the SAC, Chicago, to take command of the Bureau, you are to assume temporary command, relocate the Bureau's relocation site at Quantico, and take such other emergency action relating to DETFEO and other programs as may be desirable under the circumstances. If and when you find it necessary to assume command of the Bureau, you are to take such use of Seat of Government personnel as may be desirable, supplementing this staff as necessary with employees from the field.

AC Kelly of the Baltimore Office is being deleted from the Bureau's chain of command because of Baltimore's proximity to Washington and its vulnerability to attack at the same time as the Washington area. Your office is deemed less vulnerable since it is in the Midwest area. Adequate communications and transportation facilities are also available.

AC Kelly of the Baltimore Office should forward to you Copy Number 14 of the document entitled "Highlights of Seat of Government Defense Plans for the Chain of Command." This is

In connection with the briefing of the Executives Conference regarding defense plans on 6-1-60 relative to seeing that plans are made for members of the families of employees (relocatees) scheduled for duty at our relocation site, the following is set forth.

Each relocatee is furnished with three telephone numbers that he may confidentially furnish to his adult dependents which numbers are to be used for purposes of getting messages to the relocatee or in the event the family had to evacuate its resident area under civil defense guidance the family would use one of the numbers in order to effect a reunion with the employee.

Additionally, each relocatee has received a pamphlet entitled, "Guide for Civil Defense Action in the Washington Warning Area," which sets forth various steps the employees should take in planning and providing for their families.

Each relocatee has been given a list of motels and hotels in the vicinity of our relocation site with instructions to give it to the adult dependent of the family to be used as a possible source of housing in the vicinity of our site.

We also point out to all employees that the planning basis for the Federal Government does not permit such detailed planning by individual agencies which would provide for the detailed care of the families of employees, however, civil defense organizations are better equipped and prepared to do this from the

standpoint of housing, food, medical facilities, etc. and that it is the moral obligation of the employee to see that his family is aware of such planning and to go into the planning in detail with his family.

It would appear in addition to the foregoing that the employee should also be instructed that where other Bureau employees live in the near vicinity of their residence to enter into arrangements with the other employees who may not be relocatees to assist the family of the relocatee in every way possible.

In view of the Director's instruction at the Executive Conference meeting, each Executive Office and all Assistant Directors should advise if this matter has been taken up with their relocatees and if each relocatee has plans for his family.

RECOMMENDATION:

Each Executive Office and Assistant Director advise the Defense Plans Unit whether their respective relocatees have appropriately planned for their families under emergency conditions.

TO : Mr. A. H. Belmont

DATE: August 24, 1960

FROM : R. O. L'Allier

SUBJECT: DEFENSE PLANS -
RELOCATION PROCEDURES
IDENTIFICATION BUILDING

Bureau defense planning provides for relocatees or alternates who are scheduled for duty at the Bureau relocation site, when notified during working hours, to report to the 1500 Corridor of the Justice Building for checkoff and transportation.

It is noted Identification Division, Files and Communications Division, Domestic Intelligence Division, and Laboratory Division have relocatees and alternates assigned to the Identification Building. It would be impractical for these individuals to attempt to buck a stream of civil defense traffic in order to report to the 1500 Corridor of the Justice Building.

The Defense Plans Coordinators of the afore-mentioned Divisions have, on previous occasions, been orally advised that their employees could checkoff with a designated individual in the Identification Building and then proceed to the relocation site. It is felt that this variation in Bureau defense planning should now be incorporated in the defense plans of the afore-mentioned Divisions.

Mr. B. E. Ponder, Extension 2226, Identification Division, will be stationed in the event of an emergency at the information booth in the main lobby of the Identification Building on Second Street. All relocatees or alternates of the afore-mentioned Divisions assigned to the Identification Building will proceed upon instructions from their respective Supervisors to the information booth and checkoff with Mr. Ponder, who in turn will telephonically contact Mr. Huelskamp in the Justice Building to advise that all employees involved have checked off and are proceeding to the relocation site.

On May 25, 1960, I personally discussed with Governor Hoegh, Director, Office of Civil and Defense Mobilization (OCDM), the possibility of having [redacted] immediately available to transport key FBI officials to [redacted] in event of an emergency. I pointed out to Governor Hoegh that in an emergency the FBI is geared to go into instantaneous action to implement emergency programs which will be absolutely vital to the welfare of the country and that time would be of the essence. Governor Hoegh recognized our need and requested a letter which he would, in turn, transmit to the Defense Department with his recommendation that [redacted] be provided for FBI use. By letter dated May 25, 1960, to Governor Hoegh, I confirmed this request.

Liaison has received from Governor Hoegh the attached letter dated 8-25-60, to the Director, advising him that the Department of Defense is unable to provide the transportation requested by the FBI. Governor Hoegh states, however, that by reducing his own staff, he is able to increase the FBI allocation to two spaces under the Joint Emergency Evacuation Plan (JEEP). JEEP provides for emergency [redacted] transportation of 52 top Government officials to the OCDM Classified Site in time of emergency. These spaces are allotted at the discretion of Governor Hoegh. Defense Department has refused on numerous occasions to increase either the JEEP allotment or the number of [redacted] available for evacuation purposes.

Since conferring with Governor Hoegh on 5-25-60 relative to [redacted] transportation to [redacted] the Governor has made available to the FBI at the OCDM Classified Site sufficient working area to accommodate the Director and 21 other Bureau representatives. This arrangement was made with the Director's approval since OCDM is planning for the President and his staff and the Attorney General to relocate at the Classified Location and in all probability the President and the Attorney General would desire the Director to be with them. The Director and one other Bureau official would be transported to the OCDM Classified Site under the JEEP program mentioned above.

Auxiliary Space

Within the past few months, the Bureau's defense planning has undergone considerable revision, in order to conform to the nuclear missile concept of warfare promulgated by the Office of Civil and Defense Mobilization (OCDM). This concept visualizes a multi-megaton attack against the continental limits of the United States, with an approximate warning period of 15 minutes. The military branches concur in this anticipated warning period, and also theorize that if more than 15 minutes warning is available it means there will be advance indication of attack, permitting greater time for evacuation.

According to the office of the Secretary of Defense, it is no longer planned to evacuate the city of Washington in the event of warning of attack. It is felt it would not be possible to evacuate the city prior to the actual attack, in view of the 15-minute anticipated warning period. Rather, a take cover warning will be sounded, which requires all persons to go to shelter areas, rather than to evacuate. This means that if there is time for any type of evacuation, the streets will be clear, and it will be possible for the Director to be evacuated by automobile, which is the most reliable means of transportation.

At the present time, then, the Director and key officials will be evacuated by automobile in the event (1) the President orders evacuation in advance of any attack; or (2) there is sufficient time to get out of the city by automobile.

In the event it is not feasible to get out by automobile, the Director has space assigned to him to leave by [redacted] with other top government officials, for the OCDM classified site. As you know, we have requested of OCDM [redacted] for Bureau use to transport additional key officials of the Bureau. This matter is still pending with OCDM and we have followed on this as recently as 7/27/60.

Prior to the time the Director considered the use of [redacted] transportation, we set up with [redacted]

This was feasible at the time, several years ago, because

AHB:CSH (5)

REC- 63

18 SEP 8 1960

there was anticipated a much greater warning period of attack. [redacted]

[redacted]
[redacted]
[redacted] This we do not want to do.

Frankly, with the limited warning time of attack now anticipated, it is not feasible to consider the use of [redacted] If there is time for Bureau personnel [redacted] there will be time to get Bureau personnel out of the city by automobile. It is our feeling that this method of transportation, while feasible at the time we set it up, is outmoded and should no longer be considered.

*OK but I doubt that anyone
can get out of the city by auto*

RECOMMENDATION:

If you agree, we will advise [redacted] that we do not desire to have Bureau personnel trained [redacted] and we will dispense with the use of [redacted]

Reference memorandum Belmont to Parsons dated 7-28-60 containing recommendation approved by the Director that the Bureau dispense with the use of [] as a means of transportation to the Bureau's relocation site in an emergency.

The "Highlights of Seat of Government Defense Plans for Chain of Command" and the "Brief of Bureau Relocation Plan," as well as the defense plans for the Director's Office, Mr. Tolson's Office, Mr. Parsons' Office, and the Domestic Intelligence Division, will be revised by the Defense Plans Unit to delete all references to this provision. Revisions necessary to the defense plans of the Administrative, Files and Communications, Laboratory, and Crime Records Divisions will be handled by those Divisions.

Additionally, all personnel previously scheduled for relocation by this means should be appropriately advised of this change by the Defense Plans Coordinators of the above Divisions and the Espionage, Nationalities Intelligence, Internal Security, and Subversive Control Sections of the Domestic Intelligence Division. Navy has been advised.

RECOMMENDATIONS:

(1) Defense Plans Unit delete all references to [] transportation in the "Highlights" document, the "Brief of Bureau Relocation Plan," and the defense plans of the Director's Office, Mr. Tolson's Office, Mr. Parsons' Office, and the Domestic Intelligence Division.

(2) The Administrative, Files and Communications, Laboratory, and Crime Records Divisions delete all references to [] transportation in their respective defense plans.

Reference is made to memorandum Mr. Belmont to Mr. Boardman dated 7-30-57 captioned "Defense Plans - Relocation, All Divisions," setting forth certain procedures to be followed in maintaining the Bureau's defense plans in an up-to-date status. Recommendation number 2 of that memorandum required that a current list of evacuees and alternates scheduled for relocation be submitted every 60 days and that any changes on a day-to-day basis be called to the attention of the supervisor charged with maintaining the check-off list.

Reference is made to the request from the Defense Plans Desk dated 1-12-60 captioned as above requesting the names, blood types and factors, telephone numbers and addresses of personnel designated as key relocatees. Referenced request also required that a copy be designated for Mr. Huelskamp, Room 1515, who now has the responsibility for maintaining the check-off list for key relocatees.

There is attached a listing in this regard.

ACTION:

This memorandum should be routed to the Defense Plans Desk. Any day-to-day changes in the attached list will be called to the attention of B. L. Huelskamp. The attached list will be kept current on a 60-day basis.

On October 18 and 19, 1960, supervisory personnel were briefed concerning Liaison Section defense plans and those individuals with specific emergency assignments were reminded of their responsibilities and duties. Those concerned were again furnished the telephone numbers to be used in contacting the relocation site, the Personnel Section at the Seat of Government (SOG), and [redacted]

[redacted] All were reminded that they could furnish their adult dependents, on a confidential basis, [redacted] for use in an emergency. Supervisors having the responsibility of relocating with designated agencies were reminded to formulate their own arrangements with agency representatives regarding relocation in an emergency.

During the same period, Liaison Section defense plans were discussed with clerical personnel as it pertains to them. It was also pointed out to them to assemble in the 3500 corridor in the event a "take cover" signal is given.

Memorandum

TO : Mr. A. H. Belmont *cabio*

DATE: October 17, 1960

FROM : R. O. L'Allier *L'*SUBJECT: *COPIES - EMERGENCY HEADQUARTERS FOR C.D.C.*SUBJECT: DEFENSE PLANS -
OFFICE OF CIVIL AND DEFENSE MOBILIZATION
CLASSIFIED RELOCATION SITE

On 10-12-60, James Canavan, Justice Department Defense Plans Coordinator, telephonically advised Supervisor Mooney, Defense Plans Unit, that one of the Department attorneys assigned to the OCDM Classified Location had advised him that part of the Attorney General's space had apparently been given to the FBI since the name plate on the door bears the initials "FBI." Canavan advised that he was not aware that Governor Hoegh, Director, OCDM, had advised the Department officially of the reallocation of the space. Canavan was advised that Governor Hoegh had assigned one bedroom and one workroom to the FBI on a temporary emergency basis and that following an OCDM realignment of space, the FBI would be assigned permanent space at the Classified Location.

By memorandum Belmont to Parsons, 6-9-60, results of a discussion with Governor Hoegh concerning the FBI need for space at the OCDM Classified Location were set forth. The request was based on the fact the President and the Attorney General would want the Director at the OCDM site in an emergency. Governor Hoegh explained that space was critical at that time, that a realignment was being made, and that the FBI would subsequently be assigned permanent space. In the meantime, the Governor assigned to the Director a bedroom previously held by the Justice Department with adequate space for two persons, and a workroom assigned to the Bureau of the Budget. The workroom will accommodate 10 persons in addition to the Director and Mr. Tolson. Since the OCDM site will operate on a 24-hour basis, sleeping accommodations for 20 persons at the site have been secured.

Governor Hoegh was advised the FBI did not wish to be in the position of taking space from the Attorney General, but Hoegh said the allocation of space was his responsibility and that he would notify the Justice Department and the Bureau of the Budget. By letter dated 6-9-60 to the Director, Hoegh confirmed arrangements set forth above and advised the allocation of space was a temporary emergency measure.

Since responsibility of space assignment at the Classified Location belongs to Governor Hoegh, it appears there is no action

CLASSIFIED RELOCATION SITE

necessary by the FBI at this time. According to the Governor, we have space in the event of an emergency and will obtain permanent space in the near future.

Mr. William E. Elliott, Director, Security Office, OCDM, advised 10-17-60 that the realignment of space is still being considered by the Governor's Office. Since there is apparently no completion date in sight for this OCDM space realignment, Defense Plans Unit will proceed with plans to staff FBI space at the OCDM site and arrange for necessary transportation. This matter of staffing and transportation is being handled by separate memorandum.
